PARENTING AUTISTIC CHILDREN TOGETHER

2nd Wednesday
of the month

3:30–5:00 pm

A hybrid peer support group and playgroup gathering for parents or guardians of autistic children, or children suspected to be autistic, ages 0-5.

Each event will start with playgroup and time for parents to freely connect with others. The group will split half way through, with the adults switching to the learning session, engaging on the topic the presenter is sharing that day.

The children will remain in playgroup supervised by our providers. Parents must register to attend to ensure we have enough staff for the playgroup. If you are joining the learning session virtually, you will be sent a Zoom link to the email you provided at registration. We look forward to you joining us!

To register for any group or location [click here to email Nicollette](#), or scan the QR code to the right.

TLC Family Resource Center
