Or use the QR code on the right

For more information about accessibility at the Montshire Museum, pre-visit planning information-including a sensory map and social story, as well as sensory supplies available, please look at their website [here](#).

Join us for a free, scheduled, sensory friendly hour at the Montshire Museum of Science! There will be a limited number of participants in the museum at this time, and exhibits will have reduced sound output. Team members from various partnering agencies will be available for support, and to facilitate the playgroup.

Check in with the admissions desk, and let them know you are with P.A.C.T. This is a time to explore and play together, once done, feel free to join us either in the Wonder Woods, or the Classroom adjacent to it. You will have the opportunity to socialize and build relationships with other parents and caregivers.

If you have questions, please connect with Nicollette at NKing@pathwaysnh.org.
