

SUMMER LEGO® SOCIAL GROUP 2026

Benefits of Lego®s

Lego® play offers numerous benefits for both children and parents. For children, it enhances cognitive skills like problem-solving, spatial reasoning, and creativity, while also boosting fine motor skills and social-emotional development. Caregivers can enjoy the benefits of family bonding time, stress reduction, and increased communication and teamwork with their children through shared Lego® building experiences

Specifics

A healthy lunch will be provided for child/children and their **accompanying** caregiver

Thanks To:

Made possible through the generous donation by the Kings Daughters Benevolent Association in Nashua
